The SLS enrichment lesson, packed with fun facts, pictures and videos to engage our ISPR students, was rolled out on 13 August as a post National Day engagement activity to introduce our ISPR families to our Singapore hawker food heritage.

#### 2) Understanding Singapore Workshop

Through engaging stories and hands-on activities, P1 and P2 ISPR students are learning joyfully about Singapore whilst immersed in the use of the English Language. Selected ISPR students were also invited to take part in additional Zoom sessions to receive additional support in completing the Understanding Singapore Workshop activities.

### 'NLB Read for Books' Charity Drive 2020

**Read for Books**, a charity book drive by National Library Board, aims to celebrate and share the joy of reading. For every 10 individuals who read for 15 minutes, one book will be donated to selected beneficiaries.

Between 13 and 17 July, our teachers and students came together during English and Mother Tongue Language lessons to read for 30 minutes. **We are pleased to share that an accumulative total of 1526 students read for 30 minutes for charity. Good Job!**

### **Dare to Read!**

To encourage students to keep reading during the holidays, the Library Committee has specially curated digital stories for students. Through reading activities on SLS, students can watch and listen to a teacher, read a book and complete tasks to stay engaged at home. We would also like to remind students to return overdue books to the library. We thank you for partnering us to instil the love of reading and responsibility in your child/ward.

## Safety and Security / Other Administrative Matters

As we are currently still in Phase 2 of Safety Management Measures (SMM), please continue to observe strict SMM such as **the wearing of masks and avoiding crowded areas** during the school holidays. If your child / ward is unwell, he/she should see the doctor promptly and remain at home until he/she recovers fully. We will continue to ensure that safe management measures are monitored strictly to keep our students and staff safe at school. We also seek your understanding that visits to the school should be by appointment only.

We would also like to update you on the outcome of the inspection and mosquito surveillance that NEA conducted in our school recently. NEA officers deployed 4 BG Sentinel Traps and 3 Night Catchers in the school from 27 to 28 August 2020. In following NEA's recommendations, we have:

- Increased the frequency of mosquito control measures
- Installed spatial repellents inside classrooms
- Applied of BTI into the pond and removal of wet decaying vegetation (biting midges)
- Removed or treated potential mosquito breeding habitat

To control the mosquito population in Bukit Batok, NEA has also embarked on Project *Wolbachia* and to help raise our students' awareness of this initiative, we will be working with NEA on the following:

- Project *Wolbachia* eLearning info pack as part of the Science curriculum
- Zoom session with NEA's Research Scientist or in person for a Q&A session with the children
- Releasing of adult male *Wolbachia-Aedes* mosquitoes with NEA Research Scientists in the nearby HDB blocks with proper SMM in place.

Our school will be inviting Adviser to HKN CC, Dr Amy Khor, to join the mosquito release activity with our students. Through this, we hope to stimulate interest among our students on environmental health sciences.

Thank you for working with us to ensure that our students practise good personal hygiene, are socially responsible and always looking out for one another. Wishing you a restful and meaningful September break!

Thank you.
