Mother Tongue Language (MTL) Fortnight Part 1—Chinese New Year (CNY) 2021

This year, we will celebrate CNY on **Thursday, 11 February 2021**. The MTL Fortnight programme (Part 1) will commence in the same week. From **8 February to 10 February 2021**, students will engage in learning via a pre-celebration SLS package ahead of the celebratory activities on **11 February**. Through this programme, we aim to enhance students' awareness of traditional values and cultural practices related to CNY and different ethnic groups. As we celebrate the diversity of ethnic cultures in Singapore, let us continue to uphold *Racial Harmony (Unity in Diversity)*.

School Library and Extensive Reading

To prevent inter-mingling across different levels, the school library, D'Safari, will remain closed during recess and after school. Students will be able to visit the library to read and borrow books during their allocated class library period. In addition, students are required to bring a storybook for silent reading daily.

To encourage all students to pick up the habit of reading, D'Safari will continue to offer a wide range of programmes and activities, including the Avid Reader Card, a card comprising a series of self-directed activities designed for Lower and Upper Primary students. Parents can provide guidance, but students must complete the activities themselves. The completed activities must be submitted to your child/ward's English Teacher and each completed activity earns the student the corresponding number of stars indicated next to the task. Upon earning 20 stars, the card must be submitted and your child/ward may choose to redeem a reward at D'Safari or accumulate more stars by completing another card. We seek your support in nurturing a love of reading by encouraging your child/ward to participate actively in the Avid Reader Card.

Green Makers @ Dazhong (for all P5 students)

Green Makers @ Dazhong will provide opportunities for students to develop 21 Century Competencies such as Critical and Inventive Thinking (CIT), Communication, Collaboration, and Information Skills (CCI), and Civic Literacy and Global Awareness (CGC). Students will collaborate to design and construct prototypes to solve issues of Climate Change and Waste Sustainability that they identify in their classrooms. When this programme was piloted with last year's Primary 5 students, they greatly enjoyed the experience, with majority strongly agreeing that they would recommend this to their friends. This also builds on from our experience with the Primary 4 students last year, where they tackled Singapore's Waste Sustainability issues through their upcycling projects.

Days	Class	Time
